

Problem 3 – Service Estimate

Create a Web page (HTML5 + CSS3 + images) that looks and behaves like the screenshots below:

BASIC CALCULATED FIELDS SAMPLE.

DISTANCE (MI) *

WEIGHT (LB)

FRAGILE

No

LENGTH (IN)

HEIGHT (IN)

WIDTH (IN)

EXTRA SERVICES :

Insurance

Express Delivery

TOTAL :

\$ 00.00

Input

You are given the above screenshots + all required images + the texts on the site.

Output

The output should be valid HTML5 + CSS3 + images that implement the above Web page.

Constraints

- Use google font **Titillium Web** - <https://fonts.googleapis.com/css?family=Titillium+Web>
- Use google font **Lato** - <https://fonts.googleapis.com/css?family=Lato>
- The **shown focus effect** is **required**.
- The site should open correctly in the latest version of Chrome
- Pixel-perfect implementation is not required.
